The advice I have received it is necessary to put a policy in place to manage these situations. The draft policy is attached for approval.

APPENDIX A

County Councillor Report Avon Dassett Parish Council 9th Jan 2023

Warwickshire County Council Highways

Following last December's cold spell, WCC received questions about their winter service:

WCC have 29 gritting routes across Warwickshire, which cover 46% of our highway network. Our 29 gritters run out of various depots across Warwickshire (Coleshill, Dunchurch, Henley, Budbrook, Wellesbourne) to ensure that all gritting routes are completed within our target of 3 hours.

Our gritting policy is to grit:

All main traffic routes, A roads, most B roads and some other strategic routes In urban areas, the accesses to hospitals and main industrial estates A single route into all villages

Where we have accumulations of snow, we will prioritise the roads on the gritting routes. We also aim to keep at least one route into villages clear of snow.

Further information:

- Up to date information on if we are gritting is on Twitter: <u>www.twitter.com/WarksHighways</u> we publish the times we will be gritting on Twitter.

PLANNING APPLICATION 22/03589/FUL

The Laurels, Lower End, Avon Dassett, Warwickshire CV47 2AR

The proposed works involve the demolition of a single-storey, pitched roof kitchen to the right-hand side elevation and the replacement with an extended single-storey parapet roof kitchen.

Summary

- The original application was for a lawful development certificate based on permitted development rights.
- It is understood that the LDC was rejected because the proposed development is within the Conservation Area.

Observations

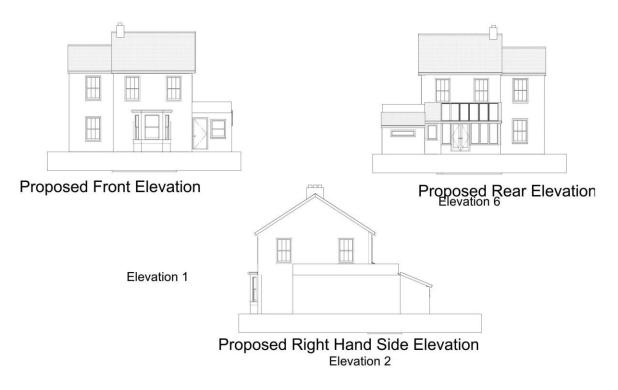

- The proposed works involve the demolition of a single-storey, pitched roof kitchen to the right-hand side elevation and the replacement with an extended single-storey parapet roof kitchen.
- The applicant has stated that the original kitchen is small by modern standards at 2.5m x 3.6m. The enlarged area of 2.5m x 8.5m is more reasonable for modern requirements with improved access. This increased area is achieved by bringing forward the front elevation of the kitchen. The existing patio doors to the rear of the property together with internal layout changes will facilitate wheelchair access.
- Existing bricks will be re-used in the rebuild with the addition of a replacement wooden front door and wooden framed double-glazed sash window to match existing windows. The roof will include a parapet wall and roof lantern.
- The view of the kitchen to nearby houses will remain largely unaltered and will be in keeping with the original building in terms of scale, materials and position.

Conclusions

- The proposed extension is extremely modest and in keeping with the existing building.
- The proposed extension will have little or no impact on the adjacent Guys Cottage or Lower End Terrace.
- The materials to be used are the same as or sympathetic with the existing building.
